

To the Members of the California State Senate:

While I am signing Senate Bill 667, it is my expectation that the appropriation included in this bill to authorize additional funding for operation of the Palomar Mountain Elementary School is on a one-time basis only. I encourage the Valley Center-Pauma Unified School District to make other arrangements in the future, if maintaining instruction at the current site cannot be absorbed within the district's normal operating revenues.

Sincerely,

Arnold Schwarzenegger
